PROJECTS

Affiliato, Affiliate Link Crowdfunding

MongoDB, Redux, Flexbox & Semantic UI, Google Social Login, Twitter API

Created a crowdfunding platform powered by affiliate links. Redux state management for campaign data flow, flexbox and Semantic ui for styling, Firebase Social Login for user auth, and MongoDB for user info.

Github: <https://github.com/donbobvanbirt/affiliato>

EZAbsentee, Absentee Voter Registration

MERN Stack, Redux, Material UI, Twitter API, Mobile Responsive (M.R.)

Developed EZAbsentee, the silver bullet for absentee voter registration. With user filled text inputs, the web app will mail out for you a physical copy of the filled out absentee form registration just for a few dollars.

Github: <https://github.com/twolfoe2/ezabsentee>

Anime LunchBox, Watch & Save Your Anime

React, Flux, Firebase RTDB, Firebase Auth, Flexbox, Kitsu API, M.R., Google Social Login

Allows users and guests to search for anime and watch episodes via a Youtube iFrame. Logged in users, through Google Social Login or email, can save their favorite anime to Firebase RTDB (Real Time Database).

Github: <https://github.com/Nemsae/Anime-LunchBox>

Transmorgi, OCR Web App

Microsoft OCR API, Google Translate API, IBM Watson Text-to-Speech API, sendGrid

Transmorgi will send to a person of your choosing, an email with the extrapolated text from an image file. Utilized five different API's (listed above) to transform the image to text, translate that text, create an audio recording of that text, and email that text and audio file.

EDUCATION

University of California, San Diego — Political Science B.A.

Studied Political Science but dropped out to explore and pursue my passion in studying computer science and developing software.

SKILLS

Javascript | Node.js

React.js | Express

MongoDB | Mongoose

MySQL | Flux | Redux

Firestore

EXPOSURE

React Native | Heroku

AWS | jQuery | Bootstrap

Material | Semantic | IBM

Bluemix | IBM Watson

Microsoft API | Google API

WORK STYLE

Flexibility - I excel in a work environment where I can pick up different hats.

Standing Desk - I work standing up using my portable standing desk.

Side Project - Always working on a side project during my off hours.

HACKATHONS

Lady Problems

10.21-10.23.16

AT&T VR/AR 11.4-11.06.16

Debug Politics 12.9-12.11.16
